## PROFILE SUMMARY

Frontend developer with almost 3 years of remote experience building fast, accessible, and responsive web applications using React and TypeScript. Proven ability to thrive in asynchronous, distributed teams while leading development efforts, mentoring junior devs, and consistently delivering quality solutions on time.

Experienced in using remote collaboration tools such as Slack, Zoom, and Trello. Passionate about building intuitive user experiences and solving real-world problems with code.

## WORK EXPERIENCE

**Frontend Engineer | Mentor & Instructor** APRIL 2024 - PRESENT  
Techwitsclan Solutions – Abuja (Remote)

- Built and deployed mobile/web apps using React Native, Firebase, and TypeScript.
- Mentored over 50 students on HTML, CSS, JS, React, and Git in live and practical sessions.
- Developed project-based curricula and provided personalized career support.

**Lead Frontend Developer** FEB 2023 - PRESENT  
Smartsafe Consulting Limited – London (Remote)

- Led development of enterprise-grade applications remotely using React, TypeScript, and modern tooling.
- Managed a distributed frontend team, conducted async code reviews, and enforced scalable coding standards.
- Collaborated with designers in different time zones via Figma and Slack to translate UI/UX into production-ready components.
- Integrated APIs, implemented testing workflows, and ensured responsiveness across all device types.

**Full Stack Developer** DEC 2022 - MAY 2025  
Loystar Inc – Lagos (Contract/Remote)

- Developed a logistics management platform with real-time tracking using Next.js, Node.js, and MongoDB.
- Designed and implemented a secure authentication flow and user dashboard.
- Enhanced user experience with data visualization and Tailwind CSS styling.

**Frontend Developer** OCT 2022 - DEC 2022  
Betty Holdings Ltd – Lagos

- Improved existing UI features and built new components across web platforms.
- Ensured accessibility and performance optimization across browsers and devices.
- Participated in UX discussions and offered technical feasibility input.
