---

### SUMMARY

Frontend Developer with 3+ years of experience building scalable web applications that serve thousands of users. Specialized in React, TypeScript, and modern JavaScript frameworks with proven expertise in remote collaboration and agile development. Led development teams, mentored 50+ junior developers, and delivered production applications on time. Strong ownership of LMS platforms, dashboards, and logistics systems with clear portfolio-backed projects. Experienced in remote collaboration, mentoring developers, and delivering scalable, user-focused solutions.

---

### WORK EXPERIENCE

#### Lead Frontend Developer – Smartsafe Consulting Limited (Remote) | Feb 2023 – Present

Key Projects: [Smartlearning LMS](#), [ImoVarsity](#), [Smartsafe Cybersecurity Website](#), [AAGolf](#), [SakerTech](#)

- Modernized Smartsafe's legacy platform into a full LMS with lessons, assignments, blogs, curriculum downloads, and certifications ([smartsafeuk.com](http://smartsafeuk.com)).
- Built ImoVarsity, a multi-role LMS where students enroll in certified courses and tutors manage content, analytics, payments, and certificate issuance ([imovarsity.com](http://imovarsity.com)).
- Developed a cybersecurity corporate website focused on clarity, trust, and accessibility.
- Mentored frontend development of AAGolf, a booking and community platform for golfers ([aagolf.co.uk](http://aagolf.co.uk)).
- Built SakerTech, a contract-ready multi-role dashboard UI (Admin, Students, Teachers, Parents)

#### Frontend Engineer / Instructor – Techwitsclan Solutions (Remote) | Apr 2024 – Aug 2025

Key Project: [Commutor Mobile App \(Play Store\)](#)

- Led frontend training for 4 cohorts (≈48 students) covering HTML, CSS, JavaScript, React, React Native, and Git.
- Mentored students to job readiness, with graduates securing internships and full-time roles. • Contributed to Commutor, a project management mobile app launched Jan 1, 2024, featuring milestone tracking, vendor collaboration, and in-app payments
- Built a website to give description of the services and app functionality

#### Full Stack Developer – Loystar Inc (Contract, Remote) | Dec 2022 – May 2025

Key Projects: [Loystar Sales Platform](#), [Vamooze Delivery System](#)

- Worked on Loystar's B2B/B2C sales platform enabling vendors to manage products, sales, transactions, and reporting ([web.loystar.co](http://web.loystar.co)).
- Implemented role-based access control for Admin, Manager, and Staff users.
- Built the frontend for Vamooze, a white-label live delivery and logistics platform supporting multiple dashboards and user roles ([web.vamooze.com](http://web.vamooze.com))

#### Frontend Developer - Betty Holdings Ltd – Lagos, Nigeria | Oct 2022 – Dec 2022

- Improved existing UI features and built new reusable components across web platforms.
- Ensured accessibility and performance optimization across browsers and devices.
- Participated in UX discussions and provided technical feasibility input.

## OTHER PROJECTS

### SEO Safe Harbour – Service Worker Platform

Website: [seosafeharbour.com](https://seosafeharbour.com)

A platform that connects clients to verified service workers. Clients can create jobs or invite specific workers; workers can apply for jobs or accept invitations. Payments are securely handled through an escrow wallet system.

Key Features:

- Job creation and invitation flows
- Worker application and acceptance system
- Escrow-based secure payment system

Role-based dashboards for clients and workers
