Web & Mobile UI/UX Design with Figma

Professional Summary

Front-end and product engineer with 4+ years of experience designing, building, and shipping production web and mobile interfaces for remote teams. Specialized in React, Next.js, TypeScript, and Tailwind CSS — from Figma handoff through component architecture, REST API integration, and CI/CD. Delivered LMS platforms, marketplaces, logistics dashboards, AI study apps, and client product sites used by thousands of users. Strong focus on responsive UX, role-based dashboards, reusable UI systems, and maintainable code as both an independent product builder and front-end lead on team products.

Professional Experience

Product Engineer

Sep 2025 – Present

Independent Builder · Remote

Personal products · Select client builds

Stack: React · Next.js · TypeScript · Ext JS · Tailwind CSS · REST APIs · Figma

- Design, build, and ship my own front-end products end to end — from UI and component architecture through API integration and production releases.
- Personal products include Quikwrk (marketplace) and OI Question Bank (AI study app), live on web and Google Play.
- Also build front ends for others when engaged — e.g. isiomaanis.com (Ext JS) and tandermis.com (React).

Lead Front-End Developer

Feb 2023 – Aug 2026

Smartsafe Consulting Limited · Remote

Smartlearning LMS · ImoVarsity · Admin Dashboard

Stack: React · Next.js · TypeScript · Tailwind CSS · REST APIs · CI/CD

- Migrated legacy LMS to TypeScript/Next.js (smartlearninguk.com, imovarsity.com) — content delivery, blogs/curriculum, payments, certificates, multi-role dashboards.
- Designed student/tutor/admin interfaces with reusable components, dark mode, Framer Motion, and CMS-style content surfaces.
- Led async code reviews, CI/CD adoption, and shared component patterns across production EdTech platforms.

Front-End Developer

Dec 2022 – May 2025

Loystar Inc · Remote

Loystar Sales Platform · Vamooze Delivery System

Stack: Next.js · React · Tailwind CSS · REST APIs · JWT/RBAC

- Built B2B/B2C sales UI for Loystar (web.loystar.co) — catalogs, transactions, reporting, Admin/Manager/Staff RBAC.
- Delivered Vamooze white-label logistics dashboards (web.vamooze.com) with multi-tenant views and API-driven operational reporting.

Front-End Engineer

Apr 2024 – Aug 2025

Techwitsclan Solutions · Remote

Commutor · Quikwrk · OI Question Bank

Stack: React · React Native · TypeScript · Firebase · REST APIs

- Launched Quikwrk (quikwrk.netlify.app · Google Play) and OI Question Bank — marketplace and AI study UIs with payment flows.
- Shipped Commutor mobile UI with milestones, vendor collaboration, and in-app payments.
